Inventors: Steven LEIGH et al.
*Method and Composition for Solubilising a Biologically
Active Compound with low Water Solubility*

Dear Examiner Woodward:

Further to our earlier telephone conversation today, attached are the proposed claim amendments we propose filing in the above-identified application. In the proposed claim amendments, the currently pending claims have been canceled, and new claims 43-69 have been added.

We wish to know if method claims 60-65, 67 and 68 would be entered and substantively examined upon filing of a Request for Continued Examination. We understand that composition claims 43-59, 66 and 69 may be subject to a restriction requirement.

Please fax any Interview Summary concerning the above issues to (703) 836-2021. We will call you on Monday, December 3, in the event we do not hear from you in the meantime.

Thank you for taking the time to consider the above matter.

Respectfully submitted,

Roger H. Lee
